I. Overview of Capstone International Services

Capstone International Services serves many roles, but its primary role is as the immigration advising office for all international students and scholars at the University of Alabama.

CIS is staffed by 6 full-time staff members, including a Director, Assistant Director, two International Student and Scholar Advisors, an Immigration Technician who maintains our records and SEVIS reporting duties, and an Immigration Assistant who manages the front office.

In our role of international student visa sponsor, CIS coordinates with Undergraduate Admission's International Admission unit and with Graduate International Admissions to process F-1 I-20s and J-1 DS-2019s (the two student visa-types used by UA) for all incoming international students and provide each admitted student with advice and guidance on how to process a student visa and make preparations to enter the U.S. Once international students arrive to UA, CIS's role switches to that of a compliance office, gathering copies of documents and contact information from each student, providing an extensive orientation with a primary focus on immigration regulatory issues and acculturation, and finally, monitoring all student course registration and on-campus employment to ensure students' compliance with student visa regulations as well as UA's compliance with our reporting duties to the US Department of Homeland Security's US Citizenship and Immigration Services unit.

II. CIS Enrollment Numbers Highlights

As of fall 2012, CIS served **1484 international students**, of whom **409 were new students**. **Of the 1484 total international students served by CIS, 1377 are active, enrolled students, and 107 are recent graduates who remain on The University of Alabama's visa sponsorship while working on Optional Practical Training (OPT)**. The 1377 active international students come from **71 countries** and regions of the world and **represent 4.1% of the 33,602 students enrolled at The University of Alabama for fall 2012¹**.

Please note that for reporting purposes, "international" is understood as a non-U.S. citizen, holding any visa status other than Legal Permanent Residency. The enrollment figures presented in this report may differ slightly from the official numbers of international students reported by The University of Alabama's Office of Institutional Research & Assessment. The difference in reported numbers is due to minor distinctions of international students included within CIS's report and the timing of The University's enrollment census date.

Significant Growth – 19.6% increase in international student enrollment compared to previous year. 60% increase in international student enrollment over 6-Year Period.

At a total of 1484, The University of Alabama hosted 242 more international students in fall 2012 as compared to the 1242 international students present in fall 2011. This accounts for a very significant 19.6% increase in the total number of non-immigrant international students served by UA's Capstone International Services.

Looking closer at the increase in overall international student numbers, one can see that there has been a significant shift in the representation of the numbers. There has been a steady increase in undergraduate students enrolled. Between fall 2009 and fall 2010, there was a 56% increase in the number of undergraduate students; between fall 2010 and fall 2011, there was another 30.7% increase in the number of undergraduate students; and again, from fall 2011 to fall 2012, there was another 48.5% jump in undergraduate numbers. An explanation for the explosion in undergraduate numbers in just 3 years is that Chinese numbers have grown significantly, especially due to the conditional admission process, which allows students to meet their English proficiency requirement through enrollment in the ELI Program.

III. National and Local Trends - Enrollment and Financial Impact of International Students

In 2011/12, the **United States hosted 764,495 international students**; in the same year, **Alabama institutions of higher education enrolled 6450 international students**.²

The economic impact of the 764,495 international students enrolled in 2011/12 was nearly **\$22 billion in contribution to the U.S. economy**, factoring in living expenses for students and their dependents, as well as tuition, books, fees and other education-related expenses.

In Alabama, the 6450 international students enrolled in 2011/12 contributed \$135,600,000 to the state economy through paid tuition, living expenses, books, fees, and other related expenses.

VIII. International Student Numbers by School/College

IX. UA International Faculty, Staff, & Scholars Report

International scholar and faculty numbers at The University of Alabama for the 2011/ 2012 year (the period between July 1, 2011 and June 30, 2012) totaled 172 non-immigrants, representing 39 countries.

Of the 5504 regular full-time and part-time faculty and staff employed by The University of Alabama³, the 172 international scholars and faculty comprise 3.13% of the total number of employees.

Looking at just the faculty numbers provides further insight into the impact of international faculty on the diversity of The University of Alabama. In a spotlight publication by The Chronicle of Higher Education published on September 30, 2011, a demographic breakdown of full-time faculty members was presented for The University of Alabama as well as thousands of other institutions nationwide. In the report, The University of Alabama's full-time faculty numbered 1,111 with 4.3% being nonresident foreign and a total minority percentage of 13%.⁴

International Scholars, Faculty and Staff Excluded from Reported Data: Permanent Residents and Guest Lecturers

This figure of 172 international scholars and faculty present in 2011/2012 does not include the faculty and staff who hold Permanent Residency Status (Green Card-holders); nor does the total include the numerous international guest lecturers and contractors who visited and performed services for The University of Alabama between July 1, 2011 and June 30, 2012.

According to Human Resources data on employees, there were 167 US Permanent Residents and Resident Aliens employed at The University of Alabama in 2011/12. The reason that Permanent Residents (Green Card Holders) are not included in CIS's international faculty and staff statistics in this report is because it is not within the purview of Capstone International Services to track or advise Permanent Residents who work for The University of Alabama. New employees who hold Permanent Residency status do not report to Capstone International Services. Permanent Residents do not normally require the office's services nor do they have to have their visa-status maintained by the Capstone International Services.

International guest lecturers and contractors who came for brief visits to perform a service for UA are not counted because they are not employees of the University. Like any other guest lecturer or contractor, their visit is brief and is for a specific purpose.

X. What the Visa Categories Mean

J-1 Research Scholar/Professor

The J-1 Exchange Visitor category is for persons who are coming to the U.S. for a temporary stay in a variety of different areas. As it concerns faculty and staff, The University of Alabama authorizes J-1 documents only for professors, research scholars, short-term scholars, specialists, and student interns.

The J-1 program is a temporary program. J-1 researcher scholars/professors are limited to just 5 years for their research or teaching; specialists and student interns are limited to 1 year, and short-term scholars are limited to 6 months of research or other activity in their field. The J-1 Visa is considered a non-immigrant visa, meaning that J-Visa holders should have no intent to immigrate to the United States or become Permanent Residents. J-1 Professors and Scholars cannot be candidates for tenure or hold tenure-track positions.

The overall objective of the J-1 Exchange Visitor classification as written in the Mutual Educational and Cultural Exchange Act (Fulbright-Hayes Act) of 1961 is "to increase mutual understanding

³ UA Human Resources – August 14, 2012

⁴ "Race and Ethnicity of Full-Time Faculty Members at More than 1,500 Institutions." *The Chronicle of Higher Education*. B57. September 30, 2011.

between the people of the United States and the people of other countries by means of educational and cultural exchanges.”

H-1B

The H-1B category is another employment visa category which is sponsored by The University of Alabama. It is for persons who are coming to the U.S. to be temporary workers in a specialty occupation. To be considered eligible for H-1B, the position must require at least a Bachelor's degree.

Employment approval is granted through the U.S. Citizenship and Immigration Services and is job-specific as well as employer- and department-specific. The H-1B has a maximum total stay of six years. Workers in this category can fill permanent positions, including tenure-track positions, but they must leave the country at the end of their authorized period of stay unless they have filed for a change to Permanent Residency or another valid visa category. H-1B is often the category used while in the process of applying for Permanent Residency.

TN Trade NAFTA

The TN Visa is another common category, and like the H-1B, it is a sponsored visa-type. The TN Visa is issued to Citizens of Mexico or Canada who are eligible to work in the U.S. because of the North American Free Trade Agreement. TNs are sponsored by the University in some sense because their visa is dependent upon their employment with the University. The TN Visa can be issued for up to 3 years for paid work in a limited number of areas, such as teaching and research.

O-1 Extraordinary Ability

The O-1 Visa is a rarely used visa category, and like the H-1B and TN, it is a sponsored visa-type. The O-1 is used in cases where the faculty member or researcher is someone of extraordinary renown and for whom the H-1B is not an option.

Other Common Visa Categories

There are several employees whose visas are not sponsored by The University of Alabama. Those with Employment Authorization Cards are the most common non-sponsored employee. F-1 international students who are on Optional Practical Training (OPT) and J-2 Spouses with Employment Authorization hold Employment Authorization Cards issued by US Citizenship and Immigration Services. Additionally, there are two other authorizations for students which do not require Employment Authorization Cards – F-1 students with Curricular Practical Training (CPT) authorization and J-1 students with Academic Training (AT) authorization. CPT and AT are authorized by the students' international advising offices.

Another common, non-sponsored visa types is the B-1/B-2 Visa. B-1/B-2 Visas are tourist visas. While tourists cannot be employees, it is possible for someone on a tourist visa to conduct research with the University with strictly external-support (e.g. a professor on sabbatical or researcher on personal funds).
