## I. Overview of International Services

International Services serves many roles, but its primary role is as the immigration advising office for all international students and scholars at the University of Alabama.

International Services is staffed by 7 full-time staff members, including a Director, Assistant Director, 2 International Student and Scholar Advisors, an Immigration Technician who maintains records and SEVIS reporting duties, a Sponsored Student and Services Assistant, and an Immigration Assistant who manages the front office.

In our role as international student visa sponsor, International Services coordinates with Undergraduate Admissions' international admission unit and with Graduate International Admissions to process F-1 I-20s and J-1 DS-2019s (the two student visa-types used by UA) for all incoming international students and provide each admitted student with advice and guidance on how to process a student visa and make preparations to enter the U.S.

Once international students arrive to UA, International Services' role switches to that of a compliance office, gathering copies of documents and contact information from each student, providing an extensive orientation with a primary focus on immigration regulatory issues and acculturation, and finally, monitoring all student course registration and on-campus employment to ensure students' compliance with student visa regulations as well as UA's compliance with our reporting duties to the Department of Homeland Security's US Citizenship and Immigration Services.

## II. International Enrollment Highlights for Fall 2016

As of fall 2016, **International Services served 1303 active, enrolled international students**, of whom **278 were new, first-time students for Fall 2016 (52 new freshmen, 16 new transfer undergraduates, 12 new conditional undergrad and grad students, 40 new ELI students, 79 new doctoral students, 53 new master's students, 1 new Education Specialist student, and 25 new visiting/non-degree students).**

**In addition to the 1303 active, enrolled international students served by International Services, there are an additional 173 recent graduates who remain on The University of Alabama's visa sponsorship while working on Optional Practical Training (OPT).** Counting these two populations together, the total number of international students served by International Services is **1476**. The 1303 active, enrolled students match the reported figures from the census data provided by the Office of Institutional Research & Assessment.

**The 1303 active, enrolled international students come from 78 countries and regions of the world and represent 3.5% of the 37,665 students enrolled at The University of Alabama for fall 2016<sup>1</sup>.**

**PLEASE NOTE:** For reporting purposes, "international" is understood as a non-U.S. citizen, holding any visa status other than Legal Permanent Residency, Resident Alien, Asylee, or Refugee. Additionally, the student figures presented in this report will differ slightly from the official numbers of international students reported by the Office of Institutional Research & Assessment. OIRA's count includes 9 additional students outside of the U.S. who are enrolled in Distance Learning.

At a total of 1476 (including OPT holders), UA hosted 182 fewer international students in Fall 2016 compared to Fall 2015. The University of Alabama saw its second decrease in overall international numbers, returning UA's enrollment to close to its Fall 2012 numbers.

The majority of the loss in enrollment was in undergraduate degree seeking students and in non-degree students. Undergraduate degree enrollment fell from 762 to 605 since Fall 2015 due to a number of factors, including: a smaller entering Freshman class; attrition of students especially from Freshman to Sophomore year; and graduating students. Additionally, 2015-16 was the last academic year for the Brazil Science Mobility Program (BSMP), leading to a sudden drop-off in enrollment in both the ELI program and undergraduate non-degree enrollment from Brazil.

### III. National and Local Trends - Enrollment and Financial Impact of International Students

In 2015/16, the **United States hosted 1,043,839 international students**; in the same year, **Alabama institutions of higher education enrolled 8561 international students**.<sup>2</sup>

The economic impact of the **1,043,839 international students** enrolled in 2015/16 was nearly **\$32.8 billion in contribution to the U.S. economy**, factoring in living expenses for students and their dependents, as well as tuition, books, fees and other education-related expenses.

In Alabama, the **7901 international students** enrolled in 2015/16 **contributed \$220,558,015 to the state economy** through paid tuition, living expenses, books, fees, and other related expenses.

Locally, the **1658 international students** at The University of Alabama in 2015/16 **contributed \$49.4 million to the local economy** through paid tuition, living expenses, books, fees, and other related expenses.<sup>3</sup>

## VIII. International Student Numbers by School/College

## **IX. UA International Faculty, Staff, & Scholars Report**

International scholar and faculty numbers at The University of Alabama for the 2015/16 year (the period between July 1, 2015 and June 30, 2016) totaled **336** non-immigrants, representing **42 countries and territories**. This is a **3% increase** from the 326 scholars hosted by UA the previous year.

**PLEASE NOTE:** For reporting purposes, the faculty, staff, and scholar figures presented in this report will differ greatly from the official numbers of faculty and staff reported by The University of Alabama's Office of Institutional Research & Assessment. International Services capture the data contained within this report from internal files, which include a large number of unpaid, visiting researchers who are not counted in official employment numbers.

### **International Scholars, Faculty and Staff Excluded from Reported Data: Permanent Residents and Guest Lecturers**

This figure of 336 international scholars and faculty present in 2015/16 does not include the faculty and staff who hold Permanent Residency Status (Green Card-holders); nor does the total include the numerous international guest lecturers and contractors who visited and performed services for The University of Alabama between July 1, 2015 and June 30, 2016.

The reason that Permanent Residents (Green Card Holders) are not included in International Services' international faculty and staff statistics in this report is because it is not within the purview of International Services to track or advise Permanent Residents who work for The University of Alabama. New employees who hold Permanent Residency status do not report to International Services. Permanent Residents do not normally require the office's services nor do they have to have their visa-status maintained by International Services.

International guest lecturers and contractors who came for brief visits to perform a service for UA are not counted because they are not employees of the University. Like any other guest lecturer or contractor, their visit is brief and is for a specific purpose.

## **X. What the Visa Categories Mean**

### **J-1 Research Scholar/Professor**

The J-1 Exchange Visitor category is for persons who are coming to the U.S. for a temporary stay in a variety of different areas. As it concerns faculty and staff, The University of Alabama authorizes J-1 documents only for professors, research scholars, short-term scholars, specialists, and student interns.

The J-1 program is a temporary program. J-1 researcher scholars/professors are limited to just 5 years for their research or teaching; specialists and student interns are limited to 1 year, and short-term scholars are limited to 6 months of research or other activity in their field. The J-1 Visa is considered a non-immigrant visa, meaning that J-Visa holders should have no intent to immigrate to the United States or become Permanent Residents. J-1 Professors and Scholars cannot be candidates for tenure or hold tenure-track positions.

The overall objective of the J-1 Exchange Visitor classification as written in the Mutual Educational and Cultural Exchange Act (Fulbright-Hayes Act) of 1961 is "to increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchanges."

### **O-1 Extraordinary Ability**

The O-1 Visa is a rarely used visa category. It is a sponsored visa-type. The O-1 is used in cases where the faculty member or researcher is someone of extraordinary renown and for whom the H-1B is not an option.

## **H-1B**

The H-1B category is another employment visa category which is sponsored by The University of Alabama. It is for persons who are coming to the U.S. to be temporary workers in a specialty occupation. To be considered eligible for H-1B, the position must require at least a Bachelor's degree.

Employment approval is granted through the U.S. Citizenship and Immigration Services and is job-specific as well as employer- and department-specific. The H-1B has a maximum total stay of six years. Workers in this category can fill permanent positions, including tenure-track positions, but they must leave the country at the end of their authorized period of stay unless they have filed for a change to Permanent Residency or another valid visa category. H-1B is often the category used while in the process of applying for Permanent Residency.

## **Other Visa Categories:**

### **F-1 OPT, F-1 CPT, J-1 Academic Training, J-2 with EAD, B-1/B-2 or WB/WT**

There are several employees whose visas are not sponsored by The University of Alabama. Those with Employment Authorization Cards are the most common non-sponsored employee. F-1 international students who are on Optional Practical Training (OPT) and J-2 Spouses with Employment Authorization hold Employment Authorization Cards issued by US Citizenship and Immigration Services. Additionally, there are two other authorizations for students which do not require Employment Authorization Cards – F-1 students with Curricular Practical Training (CPT) authorization and J-1 students with Academic Training (AT) authorization. CPT and AT are authorized by the students' international advising offices.

Another common, non-sponsored visa types is the B-1/B-2 Visitor Visa or WB/WT Visa Waiver Visitor. B-1/B-2 Visas and WB/WT status are visitor visa statuses for business trips and tourism. While those with a visitor visa status cannot be employees, it is possible for someone on a visitor visa to conduct research with the University with strictly external-support (e.g. a professor on sabbatical or researcher on personal funds).
